COMMON PROBLEM

Q:The screen color seems more and more shallow, is the machine broken?

A: Do not be afraid, the game probably just no electricity, unscrew the machine inside the screw, remove the battery cover. Remove the old electricity put into the new button-shaped CR2032 battery, please pay attention to the installation of the battery positive and negative direction, close the battery cover screwed.Tighten the screw.

Q:What does nothing show on the screen?

A:Do not worry, the screen just enter the protected mode, then just a little press the command key, you can continue to play with the elves happy.

Q: Sometimes I do not want to make a sound from the genie machine. Can I turn it off?

A: Of course, at the same time, press the B+C key, and then choose to close the sound.

Q: Can the elves get married without infrared contact?

A: Of course you can, as long as the elves reach adulthood,Dream moon elves's matchmaker will automatically find the door, for you to introduce The same dream of the moon elves. You can get your Dream moon elver and the wizard introduced by the matchmaker married, fertile next generation. If you think the matchmaker introduced the wizard is not good enough, do not want to get married, it does not matter, every matchmaker will bring a A new wizard to blind date, you can wait for the elves to marry before. If the elver life is not knot marriage, you need to wait until the end of the elves life, before starting a new generation of wizard cultivation.
